Adjust Your Pop-up Blocker
Chrome and Explorer

Adjust your Pop-up (Chrome)

1. Click on the three little dots next to the star.
2. Click on “settings”
3. Within the “Privacy and Security” click on “Site Settings”
4. Locate the “Pop-up and Redirects”
5. There will be an option saying “Blocked (recommended)” and across from that a switch.
6. Make your adjustments

Adjust your Pop-up (Explorer)

1. Open the internet explorer page
2. Click on the three little dots
3. Select the “Settings” option in the list.
4. Click on the “Cookies & Site Permissions” and a box should appear on your screen.
5. In the options there will be many tabs. Click on the “Pop-ups and Redirects” tab.
6. Adjust your “Pop-up Blocker” option settings.
7. Click “Apply” and then “Ok”.
