Hello Everyone, I wanted to remind you of this handy Canvas feature. You have the option to display the most recent announcements on your homepage. To use this feature, you'll want to follow the steps below.

For each course, you will need to:

- Go to the Course Settings tab, and scroll to the bottom of the page. You will see tiny blue lettering that says “More Options.”
- Select “More Options.”
- The first check box is the one you will want checked to enable this feature. You can select the number of most recent announcements you’d like listed on your home page.
- After setting this up, remember to select “Update Course Details.”
- Your home page should look similar to this when done.

How This Will Look:
