How to link an assignment.

This area houses links that will direct students to specific assignments.

To achieve this, you’ll want to type out your text that will be linked with the desired assignment. After it is typed out, you’ll highlight the text with your cursor, and find the assignment, quiz, announcement, or other from the right hand side. Once you click on it you will be able to tell that the text is hyperlinked.

If you’d like to remove the link, you can highlight the text and select this icon.
