Memo to: Chief Executive Officers and Accreditation Liaison Officers

From: Barbara Beno, Ph.D.

Subject: 2012-13 Institutional Reports on Institutional Status on Student Learning Outcomes and Assessment of Learning

A few years ago, this office informed you that the Commission expected institutions to demonstrate their implementation of the (2002) Accreditation Standards that deal with student learning outcomes by showing the institution to be at the Proficiency Level on the ACCJC’s Rubric on Institutional Effectiveness, Part III, by fall 2012. On February 24, 2012, I wrote to inform you that the Commission would be conducting a special assessment of institutional status with respect to implementation of the standards about student learning outcomes during the 2012-13 academic calendar year; included was information about whether your institution’s report was due October 15, 2012 or March 15, 2013.

Attached please find the College Status Report on Student Learning Outcomes Implementation to be used for completing the college report. The report form is also being sent to you in electronic form so that you can easily download and use it. Instructions appear on the form itself. You will find the report a useful document for assessing your own institution’s progress in meeting Standards and you should keep it in the college’s accreditation library for use in future institutional self-evaluation work.

The Commission will receive a summary report on institutional performance based on fall 2012 reports at its January, 2013 meeting, and a second summary report on institutional performance based on spring 2013 reports at its June meeting. The Commission may use an institution’s report to take action to require follow-up for purposes of assuring institutional compliance with Accreditation Standards.

Please contact our offices if you have any questions about this report by calling Vice President Krista Johns or sending an email to kjohns@accjc.org. Of course, as always, please feel free to contact me as well at bbeno@accjc.org.

**INSTRUCTIONS**

Colleges are asked to use this report form in completing their *College Status Report on Student Learning Outcomes Implementation*. Colleges should submit a brief narrative analysis and quantitative and qualitative evidence demonstrating status of Student Learning Outcome (SLO) implementation. The report is divided into sections representing the bulleted characteristics of the Proficiency implementation level on the Rubric for Evaluating Institutional Effectiveness, Part III (Rubric). Colleges are asked to interpret their implementation level through the lens of the Accreditation Standards cited for each characteristic. The final report section before the evidence list requests a brief narrative self-assessment of overall status in relationship to the proficiency level, indicating what plans are in place to mitigate any noted deficiencies or areas for improvement. **Narrative responses for each section of the template should not exceed 250 words.**

This report form offers examples of quantitative and qualitative evidence which might be included for each of the characteristics. The examples are illustrative in nature and are not intended to provide a complete listing of the kinds of evidence colleges may use to document SLO status. College evidence used for one Proficiency level characteristic may also serve as evidence for another characteristic.

This report is provided to colleges in hard copy and also electronically, by e-mail, as a fill-in Word document. The reports must be submitted to the Commission by either the October 15, 2012 date or the March 15, 2013 date, as defined on the enclosed list of colleges by assigned reporting date. When the report is completed, colleges should:

- a. Submit the report form by email to the ACCJC (accjc@accjc.org); and
- b. Submit the full report *with attached evidence* on CD/DVD to the ACCJC (ACCJC, 10 Commercial Blvd., Suite 204, Novato, CA 94949).

Although evidence cited in the text of the report may include links to college web resources, the Commission requires actual copies (electronic files) of the evidence for its records.

Memo to: ACCJC Member Institutions

From: Barbara Beno, President

Subject: ACCJC Rubric for Evaluating Institutional Effectiveness

Attached you will find a copy of the Rubric for Evaluating Institutional Effectiveness, updated by the Accrediting Commission for Community and Junior Colleges/WASC in June 2011. This Rubric was first published in 2007 and has undergone two previous editorial revisions. The 2011 edition reflects language added to provide some additional detail.

Since 1994, the Commission’s Accreditation Standards have required institutions to engage in a systematic and regular review of program quality as well as in short- and long-term planning, and an allocation of resources to assure that institutions achieve their stated mission and assess and improve institutional effectiveness. The 2002 Accreditation Standards added requirements that institutions become more intentionally supportive of student learning by defining intended student learning outcomes, assessing learning, and incorporating the results of assessment into decisions about institutional priorities and improvement plans.

The Rubric for Evaluating Institutional Effectiveness was developed to assist colleges as they conduct self evaluation, and to assist external review teams as they examine institutional quality during accreditation reviews. The Rubric gives institutional members, evaluators, and the Commission a common language to use in describing the institution’s practices in three key areas of the continuous quality improvement process – Program Review, Integrated Planning, and Student Learning Outcomes.

It is important to note that the sample behaviors described in each text box of the Rubric are not new criteria or standards for evaluation of an institution’s quality, but rather are examples of behavior that, if characteristic of an institution, would indicate the institution’s stage in the implementation of the Accreditation Standards, particularly Standard IB and important sections of Standard II and Standard III. The Rubric should be used in conjunction with the Accreditation Standards and the Guide to Evaluating Institutions, and Guide to Evaluating Distance Education and Correspondence Education.
The Commission has previously announced its expectations for institutional performance with regard to the practices described in the Rubric, as follows:

- The Commission expects all accredited institutions to be at the Sustainable Continuous Quality Improvement level in Program Review (Part 1 of the Rubric) and Planning (Part 2 of the Rubric).
- At present, the Commission expects all accredited institutions to be at least at the Development Level or above in Student Learning Outcomes (Part 3 of the Rubric).
- The Commission expects all accredited institutions to be at the Proficiency Level in Student Learning Outcomes by fall 2012. The Commission will assess all member institutions during the 2012-13 year.

Institutions in the ACCJC membership widely share a commitment to the purposes of assessment – to improve student outcomes. The Commission hopes that institutional leaders will find the 2011 Rubric helpful as they assess their own institution’s quality and work to achieve greater student success.

The Commission welcomes any ideas for improving the Rubric and for improving institutional practices in continuous quality improvement. Please direct comments to accjc@accjc.org.

| Awareness                | • The college has preliminary investigative dialogue about planning processes.  
                           | • There is recognition of case need for quantitative and qualitative data and analysis in planning.  
                           | • The college has initiated pilot projects and efforts in developing systematic cycle of evaluation, integrated planning and implementation (e.g., in human or physical resources).  
                           | • Planning found in only some areas of college operations.  
                           | • There is exploration of models and definitions and issues related to planning.  
                           | • There is minimal linkage between plans and a resource allocation process, perhaps planning for use of "new money".  
                           | • The college may have a consultant-supported plan for facilities, or a strategic plan. |
| Development              | • The Institution has defined a planning process and assigned responsibility for implementing it.  
                           | • The Institution has identified quantitative and qualitative data and is using it.  
                           | • Planning efforts are specifically linked to institutional mission and goals.  
                           | • The Institution uses applicable quantitative data to improve institutional effectiveness in some areas of operation.  
                           | • Governance and decision-making processes incorporate review of institutional effectiveness in mission and plans for improvement.  
                           | • Planning processes reflect the participation of a broad constituent base. |
| Proficiency              | • The college has a well documented, ongoing process for evaluating itself in all areas of operation, analyzing and publishing the results and planning and implementing improvements.  
                           | • The institution's component plans are integrated into a comprehensive plan to achieve broad educational purposes and improve institutional effectiveness.  
                           | • The institution effectively uses its human, physical, technology, and financial resources to achieve its broad educational purposes, including stated student learning outcomes.  
                           | • The college has documented assessment results and communicated matters of quality assurance to appropriate constituencies (documents data and analysis of achievement of its educational mission).  
                           | • The institution assesses progress toward achieving its education goals over time (uses longitudinal data and analyses).  
                           | • The institution plans and effectively incorporates results of program review in all areas of educational services: instruction, support services, library and learning resources. |
| Sustainable Continuous Quality Improvement | • The institution uses ongoing and systematic evaluation and planning to refine its key processes and improve student learning.  
                                           | • There is dialogue about institutional effectiveness that is ongoing, robust and pervasive; data and analyses are widely distributed and used throughout the institution.  
                                           | • There is ongoing review and adaptation of evaluation and planning processes.  
                                           | • There is consistent and continuous commitment to improving student learning; and educational effectiveness is a demonstrable priority in all planning structures and processes. |

Rev. 10/28/2011
Crosswalk Linking Proficiency Level of SLO Implementation to the ACCJC Accreditation Standards

NOTES:
- Rubric for Evaluating Institutional Effectiveness—Part III: Student Learning Outcomes
- Representative Sections of the Accreditation Standards are cited. There are other Standards which also address SLOs, student learning, and assessment.

These documents are available on the accjc.org website.

Proficiency Rubric Statement: Student learning outcomes and authentic assessments are in place for courses, programs, support services, certificates and degrees.

I.A.1. The institution establishes student learning programs and services aligned with its purposes, its character and its student population.

II.A.1.a. The institution relies upon research and analysis to identify student learning needs and to assess progress toward achieving stated learning outcomes.

II.A.1.c. The institution identifies student learning outcomes for courses, programs, certificates, and degrees; assesses student achievement of those outcomes; and uses assessment results to make improvements.

II.A.2.a,b,e,f,g,h,i
a. The institution uses established procedures to design, identify learning outcomes for, approve, administer, deliver, and evaluate courses and programs. The institution recognizes the central role of its faculty for establishing quality and improving instructional courses and programs.

b. The institution relies on faculty expertise and the assistance of advisory committees when appropriate to identify competency levels and measurable student learning outcomes for courses, certificates, programs including general and vocational education, and degrees. The institution regularly assesses student progress towards achieving those outcomes.

e. The institution evaluates all courses and programs through an on-going systematic review of their relevance, appropriateness, achievement of learning outcomes, currency, and future needs and plans.

f. The institution engages in ongoing, systematic evaluation and integrated planning to assure currency and measure achievement of its stated student learning outcomes for courses, certificates, programs including general and vocational education, and degrees. The institution systematically strives to improve those outcomes and makes the results available to appropriate constituencies.

g. If an institution uses departmental course and/or program examinations, it validates their effectiveness in measuring student learning and minimizes test biases.

h. The institution awards credit based on student achievement of the course’s stated learning outcomes. Units of credit awarded are consistent with institutional policies that reflect generally accepted norms or equivalencies in higher education.

I. The institution awards degrees and certificates based on student achievement of a program’s stated learning outcomes.

II.A.3. General education has comprehensive learning outcomes for the students who complete it... [See II.A.3.a,b,c.]

II.B.4. The institution evaluates student support services to assure their adequacy in meeting identified student needs. Evaluation of these services provides evidence that they contribute to the achievement of student learning outcomes. The institution uses the results of these evaluations as the basis for improvement.

II.C.2. The institution evaluates library and other learning support services to assure their adequacy in meeting identified student needs. Evaluation of these services provides evidence that they contribute to the achievement of student learning outcomes. The institution uses the results of these evaluations as the basis for improvement.

I.B.3. The institution assesses progress toward achieving its stated goals and makes decisions regarding the improvement of institutional effectiveness in an ongoing and systematic cycle of evaluation, integrated planning, resource allocation, implementation, and re-evaluation. Evaluation is based on analyses of both quantitative and qualitative data.

I.B.5. The institution uses documented assessment results to communicate matters of quality assurance to appropriate constituencies.

I.B.6. The institution assures the effectiveness of its ongoing planning and resource allocation processes by systematically reviewing and modifying, as appropriate, all parts of the cycle, including institutional and other research efforts.

II.A.2.a The institution relies on faculty expertise and the assistance of advisory committees when appropriate to identify competency levels and measurable student learning outcomes for courses, certificates, programs including general and vocational education and degrees. The institution regularly assesses student progress towards achieving those goals.

II.B. The institution systematically assesses student support services using student learning outcomes, faculty and staff input, and other appropriate measures in order to improve the effectiveness of these services. [See whole section.]

Proficiency Rubric Statement: Course student learning outcomes are aligned with degree student learning outcomes.

II.A.2.e The institution evaluates all courses and programs through an on-going systematic review of their relevance, appropriateness, achievement of learning outcomes, currency, and future needs and plans. Standard II.A.2.e.

II.A.2.f The institution engages in ongoing, systematic evaluation and integrated planning to assure currency and measure achievement of its stated student learning outcomes for courses, certificates, programs including general and vocational education, and degrees.

II.A.2.i The institution awards degrees and certificates based on student achievement of a program's stated learning outcomes.

Proficiency Rubric Statement: Students demonstrate awareness of goals and purposes of courses and programs in which they are enrolled.

I.B.5. The institution uses documented assessment results to communicate matters of quality assurance to appropriate constituencies.

II.A.6. The institution assures that students and prospective students receive clear and accurate information about educational courses and programs and transfer policies. The institution describes its degrees and certificates in terms of their purpose, content, course requirements, and expected student learning outcomes. In every class sections students receive a course syllabus that specifies learning outcomes consistent with those in the institution's officially approved course outline.

II.A.6.a The institution makes available to its students clearly stated transfer-of-credit policies in order to facilitate the mobility of students without penalty. In accepting transfer credits to fulfill degree requirements, the institution certifies that the expected learning outcomes for transferred courses are comparable to the learning outcomes of its own courses.

II.B. The entire student pathway through the institutional experience is characterized by a concern for student access, progress, learning, and success. [See whole section.]
