The visual editor provides a semi-WYSIWYG (What You See is What You Get) content editor that allows you to easily create, edit, and format your blog content in a view similar to that of a word processor.

This is the default editing mode for the site but if it does not appear to be enabled, you can select the Visual tab in the top right corner of the editor area, as depicted below.

There are two (2) rows of editing icons contained within the visual editor. You can find out what any icon means or does by hovering over it with your mouse – a small tooltip will appear describing the icon and its purpose.

Row 1
When initially opened, the visual editor will display a single row of icons:

1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16
